Art Unit: 3738

#### Election/Restrictions

Claims 1-45 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on November 2, 2006.

## Information Disclosure Statement

The information disclosure statement filed September 30, 2004 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered. A copy of foreign patent FR9802259 was not provided so it was not considered.

### Claim Objections

Claim 47 is objected to because of the following informalities:

On line 4 of claim 47, "the aneurysm" lacks antecedent basis. Appropriate correction is required.

### Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

<sup>(</sup>b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3738

Claims 46-48 are rejected under 35 U.S.C. 102(b) as being anticipated by Marcade (US 5,676,696).

With regard to claim 46, Marcade anticipates the claim language where the fixation device as claimed is base member (112), the fixation section as claimed is the trunk of the base member, and the first and second arms are legs (132) and (134), respectively. The vascular prosthesis as claimed is the primary graft; see Figure 2 and Figures 3A to 3I.

With regard to claims 47 and 48, Marcade discloses the claimed method fully; see Figures 3A to 3I and the corresponding text of the specification.

Claims 49 and 50 are rejected under 35 U.S.C. 102(b) as being anticipated by McDonald (US 5,676,697). McDonald anticipates the claimed method where the angle of at least about 120 degrees is met by the angle shown in Figure 6 that is about 180 degrees. The first and second legs as claimed are legs (116) and (118), respectively; see Figures 6 to 10 and the corresponding text of the specification.

#### Conclusion

Applicant should specifically point out the support for any amendments made to the disclosure, including the claims (MPEP 714.02 and 2163.06). Due to the procedure outlined in MPEP 2163.06 for interpreting claims, it is noted that other art may be applicable under 35 USC 102 of 35 USC 103(a) once the aforementioned issue(s) is/are addressed.

Applicant is respectfully requested to provide a list of all copending applications that set forth similar subject matter to the present claims. A copy of such copending claims is respectfully requested in response to this Office action if the application is not stored in image format (i.e. the IFW system) or published.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Paul B. Prebilic whose telephone number is (571) 272-4758. He can normally be reached on 6:30-5:00 M-Th.

Art Unit: 3738

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott can be reached on 571-272-4754. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
